Profile

I am a Computer Science bachelor's graduate from Taiwan, currently pursuing a Master of Information Technology with a focus on Data Science at UNSW, expected to complete my degree by May 2025. Throughout my undergraduate studies, I actively engaged in various projects related to my major, gaining practical experience in website building(HTML, JavaScript, php), database design(SQL), text-to-speech model application(Python), and linebot development(Python). Currently seeking an IT-related internship to further enhance my capabilities and acquire additional hands-on expertise.
